## Biography

Alice is part of the Practice Efficiency & Innovation group, a dynamic team responsible for identifying, implementing, and promoting various legal solutions across the firm. This includes monitoring legal technology innovation, process optimization, and the integration of new tools to support client service and operational excellence.

Alice ensures that the firm's legal solutions are aligned with the evolving needs of both internal and external stakeholders. She is also responsible for driving firm-wide initiatives to improve efficiency, streamline workflows, and ensure seamless integration of technology-enabled solutions that enhance client service.

As part of her role, Alice manages the full lifecycle of integrating legal solutions, from evaluation and selection to implementation and ongoing optimization. This includes collaborating with cross-functional teams to ensure that the firm remains at the forefront of legal innovation and continuously adapts its services according to the changing legal landscape.
